International application No.

PCT/KR2004/001932

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ This opinion has been established on the basis of a translation from the original language into the following language _____, which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).

2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:

a. type of material

- ☐ a sequence listing
☐ table(s) related to the sequence listing

b. format of material

- ☐ in written format
☐ in computer readable form

c. time of filing/furnishing

- ☐ contained in the international application as filed.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

International application No.
PCT/KR2004/001932

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1-3	YES
	Claims	NO
Inventive step (IS)	Claims	YES
	Claims 1-3	NO
Industrial applicability (IA)	Claims 1-3	YES
	Claims	NO

2. Citations and explanations :

Reference is made to the following documents:

D1 : KR 2001-0016442 A (2001. 03. 05)

D2 : KR 2001-0091080 A (2001. 10. 23)

D3 : KR 2002-0044306 A (2002. 06. 15)

Claims 1-3 of the present invention relate to transferring a short message to a receiver which is generated by combining multimedia data arranged earlier according to the character message of the text form by a service user.

D1 discloses an apparatus for transmitting image data, wherein a user transfers a character message which is transferred from the terminal by combining image data which are stored in a data storing part. Claims 1-3 of the present invention are similar to D1.

The method of inserting URL which indicates multimedia contents to a message is similar to D2's method of inserting contents' URL to a short message.

The method of transferring a character message which has been restructured to a receiving terminal in case that a receiving terminal does not have the capability of receiving it is similar to a technique of transferring a multimedia message which is converted for adapting various forms of a receiving terminal to a receiving terminal of D3.

In view of the teachings of citations D1-D3 taken in combination, these citations disclose all of the features of Claims 1-3. Thus, the subject matter of Claims 1-3 does not involve an inventive step in the sense of Article 33(3) PCT.

The industrial applicability of Claims 1-3 is self-evident in the sense of Article 33(4) PCT.
